6-Ph, S & F-h.

The Deputy City Clerk: The following ordinance was adopted on first reading, advertised in accordance with law and a hearing date set. It is now before you for public hearing, second reading and final passage:

Ordinance amending certain sections of Title 33, Chapters 4 and 5, of the Revised General Ordinances of the City of Newark, County of Essex, State of New Jersey, 2000, as amended and supplemented, in order to update and clarify ownership and maintenance of water meters that register water consumption in and for the City of Newark.

BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY, THAT:

WHEREAS, Title 2, Chapter 17 of the Revised General Ordinances of the City of Newark establishes the Department of Water and Sewer Utility and designates the Utility as self-liquidating, consistent with N.J.S.A. 40A:2-45 ; **and**

WHEREAS, Title 33, Chapters 4 and 5, authorizes the Director of the Water and Sewer Utility to establish a system of meter reading and rendering of bills for water charges ; **and**

WHEREAS, it is in the best interest of the City of Newark and the Water and Sewer Utility to ensure that the water meters within the City accurately register water consumption consistent with billing practices ; **and**

WHEREAS, portions of Title 33 were last updated in 1966, requiring a need to update information regarding water meters in order to accurately reflect the current operations of the Water and Sewer Utility.

NOW, THEREFORE, BE IT RESOLVED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY, THAT:

Section 1. Section 5-71 of Title 33, as amended and supplemented, shall be amended to:

33:5-71. METERS: DEPARTMENT'S DISCRETION TO REMOVE, RELEASE AND RESET.

The Department will only release a new or replacement water meter to a licensed plumber. The Department will issue to the plumber a meter receipt for each meter released. The Department reserves the right to remove any meter for any reason that may affect the proper billing of the account. The cost of reinstallation will be borne by the property owner and will be reflected in the bill for water charges.

Section 5-73 of Title 33 is repealed.

Section 5-75 of Title 33, as amended and supplemented, shall be amended to:

33:5-75. METERS: APPROVED TYPES.

Property owners are required to obtain a water meter from the Department of Water and Sewer Utilities. The cost of both the water meter and its installation shall be borne by the property owner, consistent with Title 33, 5-35.

Section 5-77 of Title 33 is repealed.

Sections 5-79 and 5-80, as amended and supplemented, shall be amended to:

33:5-79. METERS: SETTING OR RESETTING; SPECIFICATIONS; RULES AND REGULATIONS; TESTS.

In setting or resetting a meter, the requirements are as follows:

a. The meter shall be set so that the dial shall be faced upward and set horizontal and not more than three (3) feet above the floor. A connection shall be made by meter couplings or companion flanges (depending on the size of the meter) on both the inlet and outlet end of the meter. Meter couplings and/or flanges shall be provided and installed by the licensed plumber performing the work necessary to the setting of the meter. All connections shall be compatible with the meter to be set. Both meter couplings and flanges shall be bored for sealing with holes not less than three thirty-seconds (3/32) of an inch in diameter. A valve shall be set on the inlet and outlet side of all meters, regardless of size, and when a current type meter is set, a straight section of pipe of a length at least eight (8) times the nominal size of the diameter of the meter shall be installed immediately before the inlet, between the controlling valve and the meter, and no fittings of any kind will be permitted in this straight section of pipe. An approved backflow preventer shall be installed at the outlet side of any meter. The remote reading device provided with the meter shall be installed on the exterior front/side of the building being metered.

b. On one and one-half (1 1/2) inch and two (2) inch meters, a full sized test tee shall be placed on the outlet between the meter and the outlet valve with a short nipple in the tee and a full size valve on the nipple. On meters three (3) inches and larger a test tee with a two (2) inch opening shall be placed on the outlet between the meter and outlet valve, a short nipple in the tee and a two (2) inch valve on the nipple. No connection shall be made to a test tee.

c. Before setting three (3) inch and larger meters, the plumber shall file in duplicate, for approval of the Director of Water and Sewer Utilities or his authorized representative, a plan or sketch showing the proposed installation. Such plan or sketch shall indicate the location of the service main control valve inside the building, the distance of the meter from the point of entry of the service, height from the floor, size and type of meter and the approximate date of setting. In all cases the meter location and setting shall be to the satisfaction of the Director of Water and Sewer Utilities or his authorized representative.

d. Where two (2) inch and larger meters are installed and no plumbing fixtures or other facilities are available for disposal of discharge water from a standard test meter, provisions shall be made for disposal of such water through piping installed for such purpose from a point near the meter to the outside of the building. An additional test tee, nipple and valve shall be inserted in the service line, on the outlet side of the meter outlet valve, and by-pass connection, to discharge test water where no other practical method of discharging such water can be used.

e. Non-meter by-passes are not permitted. All water consumption must be registered by a water meter.

f. All connection pipes, fittings, valves, etc. on meter settings shall be of nonferrous, lead-free materials, as approved by the Director.

g. Electric "ground connections" shall not be made to water pipes. The Director may grant exceptions where such connections are made well ahead of the meter—between the point of entry of the service connection and the inlet valve. Meters shall not be set near electrical conductors or other electrical equipment or in close proximity to any machine that normally might cause injury to Department employees.

h. A meter shall be restricted to a size that will ensure accurate registration on the basis of consumption and occupancy of the premises or portion of the premises metered. The meter in no case may be larger than the tap or connection to the City main except as agreed upon by the Director and the customer.

i. Where accurate registration cannot be obtained, owing to low usage because of insufficient flow to operate the meter, the Department may, at its discretion, issue a smaller meter. When such reduction of the meter size is effected,

the plumber that installs the meter shall ensure that the piping of the meter setting from the inlet valve to the outlet valve is the same size as the meter.

j. As a condition of service, the Department reserves the right to inspect, read, remove, repair, calibrate and reinstall any meter during normal working hours or at other times by mutual arrangement with the property owner. The cost of such service to be charged to the customer.

k. The Department may require a meter to be removed for testing by the Department and later reinstalled by a licensed plumber, at the customer's expense, when it is determined that such meter is not properly registering, requires repairs, is installed at variance with this chapter, and/or is so placed as to risk injuries to Department employees in the normal performance of their duties.

l. No meter shall be set or reset in a pit without written permission of the Department and only under exceptional conditions where the meter cannot be located within the building and then only when a remote reading device is installed.

m. No seal placed by the Department for the protection of any meter, valve, fitting or other water connection shall be tampered with or defaced. No seal shall be broken except on written authorization of the Department. Where the seal is broken, the Department reserves the right to order the meter removed for testing at the expense of the customer. Breaking or defacing the seal of a water meter is a violation of Rev. Gen. Ord. 20:2-15(l) and carries a minimum fine of \$200.00.

n. The owner or customer shall be responsible for safeguarding the meter and seal, and, if required by the Department, the owner or customer shall properly box and protect the meter and seal. Meters shall be maintained in good working order at all times.

o. If a meter shall have been removed without authority of the Department, it shall not be reinstalled until tested by the Department at the cost of the customer.

p. Meter repairs, when possible, may be made by the Department on the premises.

q. Private meters shall not be permitted for the purpose of measuring water flow. All water consumption in and for the City of Newark shall be measured by City issued water meters and will be billed for by the Department.

r. In any premises where water is obtained through more than one (1) meter, and where tests indicate that accurate registration is not being obtained by reason of divided delivery of water through more than one (1) meter, the Department reserves the right to shut off and seal one (1) or more of the meters to ensure accuracy of registration.

s. The Department reserves the right to refuse to permit any meter installation that does not conform to this chapter or is in an unsanitary or dangerous location. The Department may refuse to supply water under such conditions.

t. Meters specially adapted for use on fire or automatic sprinkler service, where it is desired to measure accurately all rates of flow and, in case of fire, to automatically deliver and measure large volumes of water without obstruction, shall be installed, at the customer's expense, when required, on fire lines service connections. They shall be of a type approved by the Department and the Factory Mutual Laboratories and the Underwriters' Laboratories, Inc.

u. The right is reserved by the Department to require the customer, at the customer's expense, on any or all fire service connections, installation of an approved type detector check valve to guard against leakage or possible misuse of water provided for fire protection purposes. This "detector" device shall be one approved by the Department and by the Factory Mutual Laboratories and the Underwriters' Laboratories, Inc.

v. The use of water through meters approved for a fire line only is prohibited for any other use other than fire protection.

w. From time to time, as directed by the Director or his authorized representative, meters shall be tested in service on the premises. When such test, or any other inspection shows the meter to be defective, it shall be ordered for repair and testing before reinstallation. All costs in connection with this work shall be at the expense of the owner.

33:5-80. METERS: TESTING AT OWNER'S REQUEST; COST; TESTING FEES.

a. The owner of any property may request that the meter on the service line to such properties be tested by the Department. For such tests the meter shall be removed and reinstalled in accordance with Section 33:5-70 of this chapter at the expense of the owner, who shall also pay the fee established by the Director in paragraph b of this section.

b. The Director shall, from time to time, establish a schedule of testing fees to cover the cost of testing referred to in this section.

Section 2. This ordinance shall take effect upon final passage and publication according to law.

WHEREAS, some of the factors recognized by the Municipal Council include: since the time certain amendments to the land use elements of the City's Master Plan were adopted, the "Downtown Core Redevelopment Plan", was adopted by the Municipal Council, dramatically increasing the height and density of uses in the area adjoining the Mulberry Street Redevelopment Area; the adoption of the land use element amendments to the Master Plan contemplate the creation of transition zones between high density and neighborhood uses, which transition zones are not necessary in the Mulberry Street Redevelopment Area in light of the buffer created by the train lines to the east of the Mulberry Street Redevelopment Area; the open space and plazas contemplated by the Redevelopment Plan support higher densities in the Redevelopment Area; and the widening of Mulberry Street from a one lane local road to a two-way, four lane boulevard and the re-configuration of State Highway 21 to six lanes has increased ingress and egress to the Mulberry Street Redevelopment Area, allowing for higher density uses in the Redevelopment Area; and

WHEREAS, recognizing the Redevelopment Plan could possibly be interpreted to be inconsistent with certain land use elements of the Master Plan and recognizing the various factors supporting the height and density requirements incorporated in the Redevelopment Plan, the Municipal Council seeks to approve the Redevelopment Plan as drafted; and

WHEREAS, to realize the redevelopment of the Redevelopment Area, the City of Newark shall serve as the redevelopment entity responsible for implementing the Redevelopment Plan and carrying out the redevelopment projects in the Mulberry Street Redevelopment Area pursuant to N.J.S.A. 40A: 12A-4(c).

NOW, THEREFORE, BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY, THAT:

Section 1. The Municipal Council hereby adopts the Redevelopment Plan For the Mulberry Street Redevelopment Area for City Tax Block 872, Lots 1, 4, 30, 31, 33, 34, 35, 36, 37, 40, 41, 42, 44, 48, 50, 51, 52, 54, and 56; Block 873, Eastern Portion of Lot 1, (City Hall Complex); Block 876, Lots 1, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 51, 53, 56, and 57; Block 877, Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 49, 50, 52, 53, and 54 Block 878, Lots 1, 2, 3, 5, 7, 9, 10, 12, 13, 14, 15, 17, 18, 19, 21, 23, 25, 27, 28, 29, 40, 43, 44, 45, 46, 47, 48, 49, 50, 51, and 53; Block 879, Lots 1, 2, 3, 4, 8, 10, 13, 15, 17, 19, 21, 23, 30, 31, and 32; Block 881, Lots 1, 3, 4, 5, 6, 15, 16, 18, 19, 21, 23, 25, 26, 28, 29, 30, 32, 33, 34, 35, 36, 37, 38, 39, 40, 42, 53, 54, 55, 57, 59, 61, and 62; Block 884, Lots 12, 13, 15, 16, 17, 18, 19, 20, 22, 24, 25, 26, and 27; and Block 887, Lots 1, 6, 23, 34, 35, and 36.

Section 2. The Municipal Council, while recognizing a possible inconsistency with certain land use elements in the City's Master Plan, hereby finds and determines that the Mulberry Street Redevelopment Plan is appropriate in light of the factors set forth in the preamble above, including but not limited to dramatic height and density increases in the uses of property adjacent to the Mulberry Street Redevelopment Area, the lack of necessity for transition zones to the Redevelopment Area, the open space and plaza areas provided in the Redevelopment Plan, the widening of Mulberry Street from a one lane local road to an arterial road, consisting of a two-way, four lane boulevard, and the changes which will result from the future reconfiguration and expansion of State Highway 21. Furthermore, the Municipal Council hereby finds and determines that the Mulberry Street Redevelopment Plan provides for an appropriate mix and densities of residential housing, commercial space, parking, open space and other amenities, and is in furtherance of the City's plans for the redevelopment and revitalization of downtown Newark.

Section 7. If any provision of this Ordinance shall be held invalid by any court of competent jurisdiction, the same shall not affect the other provisions of this ordinance, except so far as the provision so declared invalid shall be inseparable from the remainder of any portion thereof.

Section 8. This Ordinance shall take effect upon final passage and publication pursuant to Law.

WHEREAS, some of the factors recognized by the Municipal Council include: since the time certain amendments to the land use elements of the City's Master Plan were adopted, the "Downtown Core Redevelopment Plan", was adopted by the Municipal Council, dramatically increasing the height and density of uses in the area adjoining the Mulberry Street Redevelopment Area; the adoption of the land use element amendments to the Master Plan contemplate the creation of transition zones between high density and neighborhood uses, which transition zones are not necessary in the Mulberry Street Redevelopment Area in light of the buffer created by the train lines to the east of the Mulberry Street Redevelopment Area; the open space and plazas contemplated by the Redevelopment Plan support higher densities in the Redevelopment Area; and the widening of Mulberry Street from a one lane local road to a two-way, four lane boulevard and the re-configuration of State Highway 21 to six lanes has increased ingress and egress to the Mulberry Street Redevelopment Area, allowing for higher density uses in the Redevelopment Area; and

WHEREAS, recognizing the Redevelopment Plan could possibly be interpreted to be inconsistent with certain land use elements of the Master Plan and recognizing the various factors supporting the height and density requirements incorporated in the Redevelopment Plan, the Municipal Council seeks to approve the Redevelopment Plan as drafted; and

WHEREAS, to realize the redevelopment of the Redevelopment Area, the City of Newark shall serve as the redevelopment entity responsible for implementing the Redevelopment Plan and carrying out the redevelopment projects in the Mulberry Street Redevelopment Area pursuant to N.J.S.A. 40A:12A-4(c).

NOW, THEREFORE, BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY, THAT:

Section 1. The Municipal Council hereby adopts the Redevelopment Plan For the Mulberry Street Redevelopment Area for City Tax Block 872, Lots 1, 4, 30, 31, 33, 34, 35, 36, 37, 40, 41, 42, 44, 48, 50, 51, 52, 54, and 56; Block 873, Eastern Portion of Lot 1, (City Hall Complex); Block 876, Lots 1, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 51, 53, 56, and 57; Block 877, Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 49, 50, 52, 53, and 54 Block 878, Lots 1, 2, 3, 5, 7, 9, 10, 12, 13, 14, 15, 17, 18, 19, 21, 23, 25, 27, 28, 29, 40, 43, 44, 45, 46, 47, 48, 49, 50, 51, and 53; Block 879, Lots 1, 2, 3, 4, 8, 10, 13, 15, 17, 19, 21, 23, 30, 31, and 32; Block 881, Lots 1, 3, 4, 5, 6, 15, 16, 18, 19, 21, 23, 25, 26, 28, 29, 30, 32, 33, 34, 35, 36, 37, 38, 39, 40, 42, 53, 54, 55, 57, 59, 61, and 62; Block 884, Lots 12, 13, 15, 16, 17, 18, 19, 20, 22, 24, 25, 26, and 27; and Block 887, Lots 1, 6, 23, 34, 35, and 36.

Section 2. The Municipal Council, while recognizing a possible inconsistency with certain land use elements in the City's Master Plan, hereby finds and determines that the Mulberry Street Redevelopment Plan is appropriate in light of the factors set forth in the preamble above, including but not limited to dramatic height and density increases in the uses of property adjacent to the Mulberry Street Redevelopment Area, the lack of necessity for transition zones to the Redevelopment Area, the open space and plaza areas provided in the Redevelopment Plan, the widening of Mulberry Street from a one lane local road to an arterial road, consisting of a two-way, four lane boulevard, and the changes which will result from the future reconfiguration and expansion of State Highway 21. Furthermore, the Municipal Council hereby finds and determines that the Mulberry Street Redevelopment Plan provides for an appropriate mix and densities of residential housing, commercial space, parking, open space and other amenities, and is in furtherance of the City's plans for the redevelopment and revitalization of downtown Newark.

Section 7. If any provision of this Ordinance shall be held invalid by any court of competent jurisdiction, the same shall not affect the other provisions of this ordinance, except so far as the provision so declared invalid shall be inseparable from the remainder of any portion thereof.

Section 8. This Ordinance shall take effect upon final passage and publication pursuant to Law.

Re: Mulberry Street
Redevelopment Project

Dear Councilman Amador:

As you know, we own property located within the Mulberry Street Redevelopment Area at Lots 13 & 15 in Block 884 (a/k/a 53-55 East Kinney Street, Newark, NJ 07102). As you also know, we were initially opposed to the redevelopment of this area, and joined the Mulberry Street Property Owners Association to try to stop this project.

However, we have watched this redevelopment process evolve over time, and have had a change of heart. The redevelopment process has been conducted with the utmost professionalism. The City Council and Central Planning Board have given this project significant consideration. The City's planner made a convincing case before the Planning Board that the Mulberry Street area needs to be redeveloped, and that such redevelopment will not occur without the City's use of the redevelopment process. The Planning Board gave the opposition a fair chance to ask questions and make their case at the area in need of redevelopment hearing. But, the case for the need for redevelopment to occur was clearly made. That is when we began to change our view and support the redevelopment of this area.

The redevelopment plan looks exciting, and is just what our City needs in this area. We need high-density housing and retail to add vibrance to this area. Our City also needs the tax revenues that will be generated from this project to provide better services for our residents. With the State unable to provide our City with the money we need, it seems time to create that revenue through redevelopment projects such as the one proposed.

We support the Mulberry Street redevelopment project because we believe that the prospective redevelopers, Emile Farina, Bruce Wishnia and Dean Geibel, will treat people in the area fairly, and we believe they will build a great project. We have had periodic discussions with the prospective redevelopers for quite some time. Contrary to the assertions and accusations of some, Emile, Bruce and Dean have reached out to us and have worked diligently and in good faith. They have made firm offers to purchase our property; and we are now prepared to sign a contract to sell it to them to help facilitate the project. We have every confidence that these gentlemen will treat all of your constituents with fairness and respect.

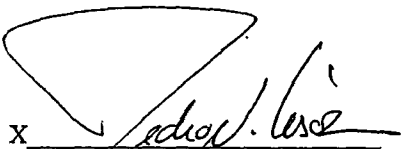

September 7, 2005

At the beginning of this process, many people in the affected area were strongly against redevelopment. My sense is that has all changed. Now, many people in the area recognize that the redevelopment proposed is necessary for the area and good for the City as a whole. We hope that you will consider this letter very seriously and, like us, permit your views to evolve in support of the project. With your support, you will be helping to create jobs, increase tax revenues for our City, and create excitement and vibrance in an area now grossly underutilized. Moreover, you will be a more effective representative for your constituents because you will be able to work with the City Administration and the redevelopers to ensure the project's success. If you continue to oppose the project, your effectiveness may be compromised because you will likely be viewed as an adversary of the project rather than a representative for your constituents. If you support the project, the Administration, your Council colleagues and the redevelopers will be more likely to consider constructive thoughts you may have on how to even further enhance the benefits of this project for our Ward. That is how you can truly be an effective representative. For all the reasons listed above, your constituents need you to support this project.

Thank you for your time and consideration of this letter.

Very truly yours,

X 
Jose A. Cesar

Dear Mayor James and City Council Members:

I did not know my name was listed on a lawsuit against the Mulberry Street Redevelopment project. I am not against the project at all.

I think this project is good for the future of the city; no question about it. People are getting paid for their property, so it is not that their property is being taken away from them.

My family bought and renovated a building at 326-328 Mulberry Street about 17 or 18 years ago. But now we have reached an agreement with the developers to sell the property. We believe this is the best thing for us and for the community.

Respectfully,

Antonio Vazquez

Dear Mayor James and City Council Members:

My parents, Mr. and Mrs. Edward Myung, presently own a building with a store and apartments upstairs at 220 Mulberry Street. They wanted you to know that they did not initiate a lawsuit against the Mulberry Street redevelopment project.

They are counting on Newark being revived like Hoboken and Jersey City. If that is so, they would like to be included in the new Newark. They have worked very hard all their lives and their property in Newark is part of their immigrant experience, their legacy. When many others left the city, they stayed, for they believed that Newark is a special place. Now that things are changing, they hope that you recognize their past and present commitment to the city.

They would like to give the Mulberry Street developers a chance and they hoping for a fair deal.

Sincerely,

Jennifer Choi
